Summary

I am a second year student pursuing Computer Science. I am always ready to have new experiences and meet new people, and learn new things. I find the idea for creating value for people and impacting the world through my work gratifying.

- I am a Front-End web developer and looking forward to learn new things.
- Also, I am a programming enthusiast ,I love to code.
- I write content for Content creators with my great hands on skill of research and development.
- I also work with multiple creators to grow their social media platforms and get leads using content. I create carousel decks that converts a stranger into follower.

I am very interested in AI & ML and its always amazing to learn its application in various fields like crime detection, predicting diseases like cancer and Parkinson's, use of Big-Data to target ads, self-driving cars, creation of unique art and music.

✓ I love video editing and graphic designing and have made over 30+ videos and carousels decks for Youtube and Instagram.

✓ I enjoy challenges that enable me to grow. I like to find application in what is taught to me and use Feynman and Pomodoro techniques to learn as quickly as possible.

✓ Having lived all around and meeting lot of people, I am able to adapt to any surrounding or circumstance.
